

## INDEX TO VOLUME IV

- Ability, Teaching.** See, Teaching ability.  
**Achievement, Pupil**, comparison of, in different types of schools, 394.  
**Adjustment and classification**, of pupils, 81.  
**Administration, School**, boards of education, 404; in cities, 404; in states, 410; officers, 408; organization of, 404; types of, 409.  
**Agriculture**, curriculum investigations in, 201.  
**American Educational Research Association**, officers for 1933-34 (inside front cover, Vol. IV, No. 1); officers for 1934-35 (inside front cover, Vol. IV, Nos. 2, 3, 4, 5); qualifications for membership (inside front cover, all issues) list of members 548; relationship to National Education Association (inside front cover, all issues).  
**Arithmetic**, bibliography on curriculum investigations, 215; enriching the teaching of, 140; genetic studies of, 141; gradation of subject-matter, 142; studies in transfer, 141. *See also, Mathematics.*  
**Art**, applications of research to curriculum materials, 174; bibliography on curriculum investigations, 230; bibliography on psychology and methods of teaching, 536; measurement of abilities and interests in, 171; psychological studies of abilities in, 498; status and trends of the curriculum for, 173.  
**Assignments, Lesson**, large units in mathematics, 481.  
**Athletics**, relation to scholarship, 192.  
**Attendance, School**, methods of studying amount of, causes of absence 72; enforcement of, 73; research needs in study of, 74.  
**Bibliographies**, controlled experimentation as means of evaluating methods of teaching, 113; curriculum investigations at the elementary- and secondary-school levels, 214; curriculum investigations at the teacher-training college, and university levels, 244; curriculum investigations in arithmetic, 215; curriculum investigations in art, 230; curriculum investigations in commercial education, 238; curriculum investigations in English language and grammar, 218; curriculum investigations in handwriting, 215; curriculum investigations in home economics, 236; curriculum investigations in industrial arts and vocational education, 235; curriculum investigations in mathematics, 229; curriculum investigations in modern foreign languages, 224; curriculum investigations in music, 233; curriculum investigations in physical education, 228; curriculum investigations in reading, 214; curriculum investigations in science, 228; curriculum investigations in social studies, 220; curriculum investigations in spelling, 217; curriculum investigations relating to health, 226; evaluation of courses of study and textbooks, 242; extracurriculum activities, 240; foreign languages, psychology and methods of teaching, 525; health of the teacher, 345; improvement of teachers in service, 340; internal organization of school divisions, 437; library methods in educational research, 117; local residents as teachers, 338; married women as teachers, 338; measurement and prediction of teaching ability, 329; methods and materials of legal research, 116; methods of research in child psychology, 114; methods of research in pupil personnel, guidance, and counseling, 116; methods of research in school finance, 113; methods of research in school organization, 110; organization of school administration, 440; pensions and retirement pay, 351; place of laboratory experiment in educational research, 118; preparation of teachers, 333; psychology and methods in high school and college, 520; psychology and methods in industrial and vocational education, 536; psychology and methods of teaching art, 536; psychology and methods of teaching character education, 541; psychology and methods of teaching commercial subjects, 534; psychology and methods of teaching employed in education courses, 545; psychology and methods of teaching English, 520; psychology and methods of teaching health and physical education, 540; psychology and methods of teaching home economics, 545; psychology and methods of teaching mathematics, 531; psychology and methods of teaching music, 539; psychology and methods of teaching science, 530; psychology and methods of teaching social studies, 524; recruitment for teacher training, 330; research and various approaches to curriculum building, 108; research through educational tests, 114; special methods in the elementary school—problems and methods of research, 112; structural organization of the American public school system, 433; teacher supply and demand, 326; teacher selection and placement, 336; teachers' salaries, 346; teaching combinations in high schools, 343; teaching load, 341; techniques of research used in the field of teacher personnel, 110; techniques used in school building surveys, 113; tenure of teachers, 349; the curriculum, 214; units of school organization, 431.  
**Boards of education**, county, 418; relation to state superintendent, 414; state, 410.  
**Bookkeeping**, methods of teaching, 492.  
**Buildings, School**. See, School buildings.  
**Business education**. See, Commercial education.  
**Character education**, bibliography on psychology and method of teaching, 542; direct versus indirect method, 507; ratings in, 509.  
**Checklist as research technic**. See, Questionnaire and checklist as research technics.  
**Class size**, in institutions of higher learning, 402; median, 298, 299; studies of, 300.  
**Clinical methods**, advantages and limitations, 69; as applied to study of child psychology, 69.  
**Commercial education**, bibliography on curriculum investigations, 238; bibliography on psychology and methods, 534; evaluation of curriculum, 188; investigations of, at college level, 201; methods of teaching bookkeeping, 492; methods of teaching stenography, 491; methods of teaching typewriting, 489; office practice, 493; status of, 186; time allotment and grade placement, 190.  
**Composition, English**, methods of teaching in college, 460.  
**County**, as school unit, 361, 362; in school administration, 417; reports on, by state surveys, 364; trends, 362.  
**Courses of study**. See, Curriculum; curriculum bases; curriculum building; curriculum investigations.  
**Curriculum**, conclusions on, 213; evaluation of, 194; investigations at the elementary- and high-school levels, 135; of graduate schools, 208; plans for building and research, 128; plans for language program, 130; plans for social science program, 133; research aid available, 133; steps in program building, 131. *See also, Curriculum building and similar headings.*  
**Curriculum bases**, activity analysis, 11; child experience, 7; creative values, 7; educational shortages, 10; emotionalized attitudes, 11; objectives, 11; present practice in, 6; present social values, 9; social heritage, 12.  
**Curriculum building**, approaches to problem of, 4; bases for, 6; bibliography, 108; plans for, 128; socio-economic approach, 9, 30; synthesis of various approaches to, 13.

## INDEX TO VOLUME IV

- Ability, Teaching.** See, Teaching ability.  
**Achievement, Pupil**, comparison of, in different types of schools, 394.  
**Adjustment and classification**, of pupils, 81.  
**Administration, School**, boards of education, 404; in cities, 404; in states, 410; officers, 408; organization of, 404; types of, 409.

**Bibliographies**, controlled experimentation as means of evaluating methods of teaching, 113; curriculum investigations at the elementary- and secondary-school levels, 214; curriculum investigations at the teacher-training college, and university levels, 244; curriculum investigations in arithmetic, 215; curriculum investigations in art, 230; curriculum investigations in commercial education, 238; curriculum investigations in English language and grammar, 218; curriculum investigations in handwriting, 215; curriculum investigations in home economics, 236; curriculum investigations in industrial arts and vocational education, 235; curriculum investigations in mathematics, 229; curriculum investigations in modern foreign languages, 224; curriculum investigations in music, 233; curriculum investigations in physical education, 228; curriculum investigations in reading, 214; curriculum investigations in science, 228; curriculum investigations in social studies, 220; curriculum investigations in spelling, 217; curriculum investigations relating to health, 226; evaluation of courses of study and textbooks, 242; extracurriculum activities, 240; foreign languages, psychology and methods of teaching, 525; health of the teacher, 345; improvement of teachers in service, 340; internal organization of school divisions, 437; library methods in educational research, 117; local residents as teachers, 338; married women as teachers, 338; measurement and prediction of teaching ability, 329; methods and materials of legal research, 116; methods of research in child psychology, 114; methods of research in pupil personnel, guidance, and counseling, 116; methods of research in school finance, 113; methods of research in school organization, 110; organization of school administration, 440; pensions and retirement pay, 351; place of laboratory experiment in educational research, 118; preparation of teachers, 333; psychology and methods in high school and college, 520; psychology and methods in industrial and vocational education, 536; psychology and methods of teaching art, 536; psychology and methods of teaching character education, 541; psychology and methods of teaching commercial subjects, 534; psychology and methods of teaching employed in education courses, 545; psychology and methods of teaching English, 520; psychology and methods of teaching health and physical education, 540; psychology and methods of teaching home economics, 545; psychology and methods of teaching mathematics, 531; psychology and methods of teaching music, 539; psychology and methods of teaching science, 530; psychology and methods of teaching social studies, 524; recruitment for teacher training, 330; research and various approaches to curriculum building, 108; research through educational tests, 114; special methods in the elementary school—problems and methods of research, 112; structural organization of the American public school system, 433; teacher supply and demand, 326; teacher selection and placement, 336; teachers' salaries, 346; teaching combinations in high schools, 343; teaching load, 341; techniques of research used in the field of teacher personnel, 110; techniques used in school building surveys, 113; tenure of teachers, 349; the curriculum, 214; units of school organization, 431.  
**Boards of education**, county, 418; relation to state superintendent, 414; state, 410.  
**Bookkeeping**, methods of teaching, 492.  
**Buildings, School**. See, School buildings.  
**Business education**. See, Commercial education.  
**Character education**, bibliography on psychology and method of teaching, 542; direct versus indirect method, 507; ratings in, 509.  
**Checklist as research technic**. See, Questionnaire and checklist as research technics.  
**Class size**, in institutions of higher learning, 402; median, 298, 299; studies of, 300.  
**Clinical methods**, advantages and limitations, 69; as applied to study of child psychology, 69.  
**Commercial education**, bibliography on curriculum investigations, 238; bibliography on psychology and methods, 534; evaluation of curriculum, 188; investigations of, at college level, 201; methods of teaching bookkeeping, 492; methods of teaching stenography, 491; methods of teaching typewriting, 489; office practice, 493; status of, 186; time allotment and grade placement, 190.  
**Composition, English**, methods of teaching in college, 460.  
**County**, as school unit, 361, 362; in school administration, 417; reports on, by state surveys, 364; trends, 362.  
**Courses of study**. See, Curriculum; curriculum bases; curriculum building; curriculum investigations.  
**Curriculum**, conclusions on, 213; evaluation of, 194; investigations at the elementary- and high-school levels, 135; of graduate schools, 208; plans for building and research, 128; plans for language program, 130; plans for social science program, 133; research aid available, 133; steps in program building, 131. *See also, Curriculum building and similar headings.*  
**Curriculum bases**, activity analysis, 11; child experience, 7; creative values, 7; educational shortages, 10; emotionalized attitudes, 11; objectives, 11; present practice in, 6; present social values, 9; social heritage, 12.  
**Curriculum building**, approaches to problem of, 4; bases for, 6; bibliography, 108; plans for, 128; socio-economic approach, 9, 30; synthesis of various approaches to, 13.

- Curriculum investigations**, arithmetic, 140; art, 171; at teacher-training college, and university levels, 199; bibliography, at college level, 244; commercial education, 186; English language and grammar, 146; extracurriculum activities, 191; handwriting, 138; health and physical education, 160; home economics, 182; industrial arts and vocational education, 178; mathematics, 168; modern foreign languages, 156; music, 175; reading, 135; science, 165; social studies, 149; spelling, 143.
- District, Local school**, advantages and disadvantages, 358; independent, 365; origin, 357; present status, 357; techniques for studying ability to finance program, 55. *See also, Town and township.*
- Economy**, in relation to school organization, 395.
- Educational research techniques**, applied to curriculum building, 4; applied to school organization, 21; applied to special methods in the elementary school, 29; as means of evaluating teaching methods, 36; in child psychology, 65; in field of teacher personnel, 15; in school finance, 43; through educational tests, 58; used in school building surveys, 49.
- Educational tests**. *See, Tests, Educational.*
- Education courses**, adequacy and relative value of, 280; bibliography on psychology and methods of teaching, 545; classroom procedure and methods, 514; contents of particular, 279; investigations of, 209; student interests and study habits, 513.
- Education of teachers**. *See, Teacher training.*
- Elementary schools**, departmentalization, 389; history of organization, 370; homogeneous grouping, 382; platoon organization, 393; reorganization, 376.
- English language and grammar**, bibliography on curriculum investigations, 218; bibliography on psychology and methods of teaching at high school and college level, 520; in elementary schools, 147; in high school, 450; in secondary schools, 148; selection of textbooks, 196; usage, 147. *See also, Literature, reading, and English.*
- Evaluations and appraisals of courses of study**, activity curriculums, 195; bibliography, 242; elementary and secondary, 194; in connection with surveys, 196; teacher training, 194.
- Experimentation in research**, as means of studying methods of teaching, 34, 36; as applied to child psychology, 66; as a method of studying school administration, 27; bibliography on, as a means of evaluating methods of teaching, 113; errors of measurement, 38; factors to be considered in evaluating teaching by means of, 36, 37; future needs and problems of, 41; importance of generalization and application, 39; influence of uncontrolled factors, 36.
- Extracurriculum activities**, bibliography on curriculum investigations, 240; comparison of leaders with other students, 191; comparison of time spent on, and curriculum activities, 192; correlation of, with the curriculum, 193; effect of supervisor of scholarship, 192; means of evaluating, 80; methods of studying, 80; post-school success of leaders, 193; relation of athletics to scholarship, 192; relation of participation in, to scholarship, 191; studies in relation to curriculum, 191; undergraduate reports on, 193.
- Federal and state statutes**, location and interpretation of, 86.
- Finance**, School, ability of district to provide buildings, 55; bibliography on methods of research in, 113; contributions of research in, 44; methods of research in, 43; type of research needed, 46.
- Fine arts**. *See, Art.*
- Foreign languages**. *See, Languages, Modern foreign.*
- Guidance and counseling**, methods of studying, 79.
- Handwriting**, bibliography on curriculum investigations in, 215; general value of, 139; manuscript vs. cursive writing, 139.
- Health**, bibliography on curriculum investigations, 226; bibliography on psychology and methods of teaching, 540; bibliography, relating to teachers', 345; comparisons of athletes with non-athletes in school, 503; education for, 160; improvement of standards, 310; investigations at the college level, 226; mental, 309; objectives, 163; of the teacher, 308; ratings, 309; responsibility of teacher-training institutions for, 308; service, 162; sick leave, 310.
- Higher education**, administration of institutions of, 425; articulation with secondary education, 199; curriculum investigations, 199-213; departmental organization, 401; history of organization, 372; reorganization of, 380; reports of surveys or of committees, 200.
- High schools**. *See, Secondary schools.*
- Home economics**, activities of adults, 183; bibliography on curriculum investigations, 236; bibliography on psychology and methods of teaching, 545; investigations at higher levels, 203; pupil activities, 182; pupil interest, 182; relation between home experience and achievement, 183; surveys of existing courses, 185; trends and changes in family life, 185.
- Homogeneous grouping**, administration of, 385; attitudes toward, 388; effectiveness of, 386; effect of school enrolments, 383; grade level as factor in, 383; in elementary schools, 382; in secondary schools, 382; methods of teaching, 310.
- Industrial arts and vocational education**, auto-mechanics and metal work, 181; bibliography of curriculum investigations, 235; bibliography on psychology and methods of teaching, 536; general shop vs. unit shop courses, 180; household mechanics and farm shop courses, 180; integration and differentiation of courses, 179; investigations at the college level, 203; mechanical drawing, 181; methods of teaching at high school and college levels, 495; objectives for junior high school, 178; related sciences, 181; selection of content of industrial arts courses, 179; teacher-training courses in, 181; wood-working, 180.
- In-service improvement of teachers**, bibliography, 340; in institutions, 293; supervisory, 294.
- Introspection as research method**, advantages and limitations, 69; as applied to child psychology, 69.
- Junior college**, as school unit, 379.
- Kindergartens and nursery schools**, history of growth, 373.
- Laboratory experimentation**, bibliography on, 118; nature of an experiment, 100; place in educational research, 97; relation of experimental to the statistical method, 104.
- Languages, Modern foreign**, bibliography on curriculum investigations, 224; bibliography on psychology and methods of teaching, 525; error studies, 159; grammar and syntax, 469; investigations at the college level, 204; methods and textbooks in, 468; methods in general, 469; studies in syntax, 158; psychological studies in teaching of, 471; syllable for, 159, 467; teaching pronunciation by means of phonetics, the phonograph, radio, and movies, 470; trends abroad, 466; vocabulary and idiom studies, 156, 467.
- Law**, classification of, 85; guides to primary sources of case, 90; location and interpretation of court decisions, 87; location and interpretation of statutory, 86; method of finding cases illustrated, 88.
- Legal research**, bibliography on methods and materials of, 116; methods and materials of, 85.

- Library methods in research**, bibliography on, 117; essentials for successful educational research, 92; influence of staff, 95; methods of acquiring essentials, 93; place of, 92.
- Literature, reading, and English**, analysis of trends, 449; bibliography on psychology and methods of teaching, 520; investigations in correct usage, 449; investigations in interests, 453; methods of teaching in high school, 457; remedial reading in college, 456; summary of studies, 449.
- Local residents as teachers**, bibliography, 338; percent employed, 285; policies and practices, 285.
- Married women as teachers**, arguments concerning, 286; as new teachers, 287; bibliography, 338; legal, contractual, and regulatory status, 289; marrying while in service, 288; percent of employed, 289; relative efficiency, 291; world status of, 292.
- Mathematics**, bibliography on curriculum investigations, 229; bibliography on psychology and methods of teaching, 531; curriculum analysis, 168; curriculum investigations at the college level, 204; drill, practice, and review, 487; errors, diagnosis, and remedial teaching, 484; measurement of achievement, 170; prognosis: relation of achievement to predictive factors, 479; permanence of retention, 485; selection of textbooks, 198; sex differences in achievement in, 483; vocabulary, 170. See also, Arithmetic.
- Membership list**, American Educational Research Association, 548.
- Methods of research**. See, Research techniques.
- Methods of teaching**, bibliography on problems and methods of research in, 112; errors of measurement in evaluating, 38; experimental method as means of studying, 34, 36; general techniques of research, 33; individualized in mathematics, 481; investigations of, in high school, 457; most favored methods of studying, 35; questionnaire as means of studying, 34; techniques of studying special, in elementary schools, 29; value of generalization vs. specificity in, 32.
- Moral education**. See, Character education.
- Motion pictures**, as means of teaching foreign languages, 470.
- Music**, administration of, 177; appreciation, 176; bibliography of curriculum investigations in, 233; bibliography on psychology and methods of teaching, 539; investigations at the college level, 205; pedagogical studies, 177; psychological studies, 177; psychology and methods of teaching, 501; race studies, 177; tests and measurements, 176.
- National Education Association**, relationship to American Educational Research Association (inside front cover, all issues).
- Observational method of research**, advantages and limitations, 66; effect of external conditions in use of, in child psychology, 65; form of recording, 65; time units of, 65.
- Office practice**, methods of, in high schools and colleges, 493.
- Organization, School**. See, School organization.
- Out-of-class activities**. See, Extracurriculum activities.
- Pensions and retirement systems**, benefits, 319; bibliography, 351; current practices relating to, 323; fundamental principles, 319; general status of, 322; in colleges and universities, 324; income taxes and pensions, 324; social and economic bases, 319; state systems, 320.
- Personnel, Teacher**. See, Teacher personnel.
- Phonograph**, as means of teaching foreign languages, 470.
- Physical education**, bibliography on curriculum investigations, 228; bibliography on psychology and methods of teaching, 540; investigations at the college level, 205; methods of teaching, 505; program investigations, 164. See also, Health.
- Promotion plans**, in secondary schools, 397.
- Psychological tests**, as method of studying child psychology, 68.
- Psychology**, bibliography on methods of research in, 114; clinical method, as means of studying child, 69; experimental method as applied to study of child, 66; introspective method as means of studying child, 69; investigations at the college level, 203; methods of research in study of child, 65; observational method, 65; questionnaire method applied to study of child, 68; rating of child as method of study, 66.
- Psychology and methods of teaching**, at high school and college level, 445; bibliography, 520.
- Pupil personnel**, bibliography on methods of research, 116; historical studies of, 82; methods of research in, 72; methods of studying characteristics of pupils, 72; methods of studying elimination from school, 75; methods of studying school attendance, 72; methods of studying school marks, 75; methods of studying recording and reporting, 76; methods of studying school progress, 74.
- Pupils**, methods of studying elimination of, 75; methods of studying rate of progress, 74; progress of, as measure of teaching efficiency, 15. See also, Pupil personnel.
- Questionnaire and checklist as research techniques**, as means of investigating methods of teaching, 34; as a means of studying school administration, 25; as applied to child psychology, 68.
- Radio**, as means of teaching foreign languages, 470.
- Rating**, as method of child study, 66.
- Reading**, bibliography on curriculum studies, 214; books for children, 138; children's interests in reading, 137; content of readers, 136; grade placement, 137; literature in the elementary school, 138; selection of materials, 136; studies of deficiencies at college level, 202; successive emphases in content, 135; taught as a distinct subject, 135; time allotment, 135; when to begin teaching, 135; workbooks, 137.
- Recording and reporting**, methods of studying problems of, 76.
- Recruitment for teacher training**, bibliography, 330; problems of prognosis, 268; status and trends, 267; techniques of selection, 269.
- Reliability**, of measures of teacher ability, 263.
- Religious curriculums**, at the college level, 206.
- Research techniques**. See, Educational research techniques.
- Retirement systems**. See, Pension and retirement systems.
- Salaries, teachers**, analyses of, 313; bibliography, 346; relation to certain factors, 312; theories of determination, 312.
- School attendance**. See, Attendance, School.
- School boards**. See, Boards of education.
- School buildings**, bibliography on techniques used in surveys of, 113; determination of room requirements, 55; effect of growth and character of community on, 49; effect of school population on needs for, 51; effect of type of school organization on needs, 51; techniques for evaluation of, 52; techniques for studying needs, 54; techniques for study of utilization of, 53; techniques used in surveys of, 49.
- School finance**. See, Finance, School.
- School marks**, methods of studying distribution and reliability of, 76.
- School organization**, application of research methods to, 24; beginnings of research in, 22; bibliography on, 431; bibliography on methods of research, 110; experimentation as technique of studying, 27; extension of structure, 373; functional changes in structure, 375; internal, 382; local district, 357; methods of research in, 21; questionnaire and checklist as means of studying, 25; structural, 369; surveys as means of studying, 24; use of trends in studying, 26; units of, 357.

**School progress**, methods of studying rate of, 74. **Science**, attitudes and method, 167; bibliography on curriculum studies of, 228; bibliography on psychology and methods of teaching, 530; comparison in attainment following different teaching procedures, 473; curriculum investigations at the college level, 206; curriculum trends, 165; effects of learning on behavior, 477; learning studies, 475; overlapping of subjectmatter, 166; selection of textbooks, 198; subjectmatter content, 166.

**Secondary schools**, bibliography on curriculum investigations, 214; guidance programs, 399; history of organization, 370; homogeneous grouping in, 382; promotion plans, 397; recitation schedules, 396; reorganization, 376.

**Selection and placement of teachers**, bibliography, 336; factors influencing, 283; follow-up service, 284; making contacts, 281; management and cost of, 283; responsibility for, 281; techniques in, 282.

**Social studies**, background, 149; bibliography on curriculum investigations at elementary- and secondary-school levels, 220; bibliography on psychology and methods of teaching, 524; children's interests, attitudes, and abilities, 155; curriculum investigations at the college level, 207; difficulties and errors, 155; objectives and content of courses, 151; offerings in the elementary school, 149; offerings in junior college, 151; offerings in junior high school, 150; offerings in senior high school, 150; psychology and methods of teaching in high school and college, 462; testing the curriculum, 154; text books, 152; vocabulary of, 151.

**Social utility**, as a basis for curriculum building, 9, 30.

**Special schools and classes**, methods of studying, 81.

**Spelling**, bibliography on curriculum investigations, 217; course of study in, 143; disabilities in, 144; methods of instruction, 144; tests, 145.

**Staffs, of county superintendents**, kind of, 425; legal provisions, 424; methods of selection, 425; number, 425.

**Staffs, of education departments**, classification of, 416; growth in size, 414; methods of selection, 417.

**State**, as school unit, 367.

**Statistical method**, as means of studying methods of instruction, 34.

**Stenography**, methods of teaching, 491.

**Subject combinations**, theory and practice in, 390.

**Superintendent, county**, methods of selection, 421; powers and duties, 424; salary of, 423; term of office and tenure, 423.

**Superintendent, State**, length of term and tenure, 414; method of selection, 413; origin and history, 413; qualifications, 414; relation to state board of education, 414; salary, 414.

**Supply and demand**, Teacher, factors influencing demand, 259; factors influencing supply, 258; remedial measures for teacher surplus, 259.

**Surveys**, as means of studying extracurriculum activities, 80; as means of studying guidance and counseling, 79; as means of studying school administration, 24; as technique for improvement of higher education, 430; reports on county units, 364.
